

## 5.7 Plant capacity - United Kingdom

	<b>MW</b>				
	end December				
	1999	2000	2001	2002	2003
<b>Major power producers (1)</b>					
<b>Total declared net capability</b>	<b>70,245r</b>	<b>72,193r</b>	<b>73,382r</b>	<b>70,615r</b>	<b>71,746</b>
Of which:					
Conventional steam stations:	35,647r	34,835r	34,835r	30,687r	30,367
Coal fired	25,581	24,810r	24,810r	22,427r	22,524
Oil fired	2,829	2,933	2,933	2,708	2,930
Mixed or dual fired (2)	7,237r	7,092r	7,092r	5,552r	4,913
Combined cycle gas turbine stations	16,110	19,349	20,517	21,800r	23,585
Nuclear stations	12,956	12,486	12,486	12,486	12,098
Gas turbines and oil engines	1,301r	1,291r	1,291r	1,432r	1,489
Hydro-electric stations:					
Natural flow	1,327	1,327	1,348	1,304	1,302
Pumped storage	2,788	2,788	2,788	2,788	2,788
Renewables other than hydro	117	117	117	117	117
<b>Other generators (1)</b>					
<b>Total capacity of own generating plant</b>	<b>5,388</b>	<b>6,258</b>	<b>6,296</b>	<b>6,376r</b>	<b>6,778</b>
Of which:					
Conventional steam stations (3)	3,315	3,544	3,464	3,345r	3,405
Combined cycle gas turbine stations	1,243	1,709	1,777	1,854r	1,950
Hydro-electric stations (natural flow)	150	158	160	162	166
Renewables other than hydro	680	847	895	1,015	1,257
<b>All generating companies</b>					
<b>Total capacity</b>	<b>75,633</b>	<b>78,451</b>	<b>79,678r</b>	<b>76,991r</b>	<b>78,524</b>
Of which:					
Conventional steam stations (3)	38,962	38,379	38,299r	34,032r	33,772
Combined cycle gas turbine stations	17,353	21,058	22,294	23,654r	25,535
Nuclear stations	12,956	12,486	12,486	12,486	12,098
Gas turbines and oil engines	1,301r	1,291r	1,291r	1,432r	1,489
Hydro-electric stations:					
Natural flow	1,477	1,485	1,508	1,466	1,468
Pumped storage	2,788	2,788	2,788	2,788	2,788
Renewables other than hydro	797	964	1,012	1,132	1,374

(1) See paragraphs 5.47 and 5.48 for information on companies covered.

(2) Includes gas fired stations that are not Combined Cycle Gas Turbines.

(3) For other generators, conventional steam stations include combined heat and power plants (electrical capacity only), but exclude combined cycle gas turbine plants, hydro-electric stations and plants using renewable sources.
